Good Morning EV Working Group:
I was approached by Jen Weiss from Duke University for a possible master's thesis next year on EV rate penetration (see the attached draft proposal).

Would this be useful to the group? I'd like to make sure if I'm the point of contact it's not done in a vacuum and that it is helpful -

Please let me know your thoughts anyone -

Diane

To: "Cherry, Diane" <dianecherry@energync.org>

Hey Diane,

I drafted up this summary of the EV master's project with the assistance of Dalia, who would be the advisor (NI will likely "co-advise" with her). Let me know what you think and if there is anything you'd like to add to it … I'll send you the final version once I get your comments and Dalia's back.

Thanks!

Jen
